

**Reporting requirements for local governments are constantly changing.**

Are you keeping up with those changes?

With over 10 years of experience helping local governments in Maryland, we are uniquely qualified to bring the technical skills necessary to achieve your goals while providing the close, personal attention you deserve, regardless of the size of your government.

As a member firm of the American Institute of Certified Public Accountants' Government Audit Quality Center, we receive regular updates on topics directly related to audits of states and local governments. This is just one of the ways that we empower our staff to maintain the resources and knowledge necessary to provide the highest quality service and technical expertise to our clients.

Our clients have come to rely on our expertise throughout the year. They are secure in the knowledge that we are always available to provide assistance as needed, not just during the annual audit. It's this type of personal attention that sets us apart from other firms.
