# Governmental Accounting

---

With years of experience helping local governments in Maryland, we are uniquely qualified to bring the technical skills necessary to achieve your goals while providing the close, personal attention you deserve, regardless of the size of your government.

**Local governments, agencies and authorities face a unique set of challenges and regulatory responsibilities.** At WCS, we have built a strong reputation for developing and implementing annual audit processes for State and Local governments that recognize, analyze and plan for governments and municipalities' unique demands.

---

**As a member firm of the American Institute of Certified Public Accountants' Government Audit Quality Center, we receive regular updates on topics directly related to audits of states and local governments.**

WCS empowers our staff to maintain the resources and knowledge necessary to provide the highest quality service and technical expertise to our clients.

In our experience working with other small-town municipalities, they've expressed concern that the annual audit process has become routine at best. Perhaps their current auditor spends little to no time learning about the day-to-day operations of the town.

Without a proper understanding of your day-to-day operations, how can they provide any meaningful suggestions for improvement in management operations?

**Our clients rely on our expertise throughout the year.** We are always available to assist as needed, not just during the annual audit. Our proactive personal attention, combined with our governmental accounting insights and experience, sets us apart.

## About WCS

WCS has offices in Hunt Valley, Bel Air and Elkton, Maryland. Over the years, the firm has expanded its range of services beyond the traditional tax, accounting and consulting services to include niche groups that specialize in investigative accounting, non-profit organizations, construction and real estate, governmental, employee benefit plans and healthcare practices.

While the firm has grown and changed, the mission of providing the highest quality business consulting, tax and accounting services, delivered with close, personal attention, remains the same as it was over 40 years ago.
